

## NETSUITE ADD-ON

With NetSuite extensibility, it is possible to:

- Customize end-to-end business processes to your precise company and industry requirements
- Build the new functionality, workflows and processes your business demands
- Connect to legacy and third party applications and content providers
- Personalize roles to optimize individual and team productivity

IT-Ration has packaged turn-key customizations into NetSuite **Bundles** that can be deployed to your instance quickly. Those bundles require a minimum of configuration and can add great value to your business processes with a minimum of effort. Please be advised that those customizations added to your instance are fail proof: customizations and extensions carry forward seamlessly with upgrades and do not involve any maintenance from you. Also, any bundle installation can be easily reverted with a one-click “uninstall” process. More information on NetSuite Customization and Verticalization platform can be found at:

<http://www.netsuite.com/portal/developers/suiteflex.shtml>

## INSTALLATION OPTIONS

Once you purchase a NetSuite Add-on from our web site, an IT-Ration support representative will fulfill your order within the next business day. Our offices are open from Monday to Friday, 9am to 5pm Eastern Time. Depending of the installation option you chose, he will contact you by phone or send you a confirmation email.

### Install it for me

IT-Ration is available to assist you with the installation of the NetSuite Add-ons you purchase or download. For this purpose, we need your **NetSuite Account Number**, in order to be able to enable the required bundles in your account, and a **temporary login** to your account, **with the administrator rights**. A support representative will contact you prior the installation of the add-on and once the add-on has been installed to show you the new functionalities.

Please be assured that any confidential data you provide us is kept in a secure fashion. IT-Ration will keep confidential all your data and your business or products information. To not hesitate to contact us if you need more information on the matters or if you wish to have a formal non-disclosure agreement.

## I will install it myself

Once IT-Ration receives your order for one or more NetSuite Add-ons, the related bundles will be made available to your NetSuite account, based on the **NetSuite Account Number** you provide with your request. You will receive a confirmation email after completion of the bundle publication. More details on the NetSuite install process can be found at:

## ABOUT IT-RATION CONSULTING

A consulting company offering value-added distribution and consulting services, IT-Ration provides solutions designed to enhance the productivity and competitiveness of SMEs. These include the integration of on-demand software, system implementation, consultancy in the re-engineering of business procedures, and strategic consultancy in information technology. Founded in 2005, IT-Ration offers the combined expertise of a team of consultant-specialists in software engineering. These consultants are experienced in developing and managing projects that integrate business management software packages with customer relations management software. Our professionals' in-depth knowledge in business procedures, distribution, accounting, order processing, supply and stock management enables IT-Ration to deliver solutions which suit the needs and requirements of clients and their respective markets.
